**CC:** Richard Fetzer  
**Subject:** background groundwater quality data for Dimock Pennsylvania

Good Morning Karen,

My name is Gary Newhart and I'm out of Cincinnati with the Environmental Response Team. I'm working at the Dimock Groundwater Site, and Rich Fetzer has asked that I gather background groundwater quality data to help support our understanding of what may or may not be 'elevated' levels of chemical constituents in the groundwater results were expecting from our collected groundwater samples.

Rich tells me that you may have groundwater quality data for the Dimock (Susquehanna County) area. If that's true, can you help us out with understanding "background" concentrations of analytes in the groundwater?

Thanks for your help,

Gary Newhart
